ODDS & ENDS

- Rain gear and rubber boots are not supplied. Please make sure that everyone in your party is aware of this, as they are a necessity item.
- The big 150-quart plastic coolers are the best due to the drain holes in them. (ice will not melt as fast when the water is able to drain out)
- When arriving in Coal Harbour, please go to the Quatsino Sound Marine Transportation Ltd. (water-taxi) office, which is located on the left-hand side of the road, just up from the government wharf.
- Please check with B.C. Ferries approximately 1 week before arriving to find out the current schedules, as they have been known to change due to maintenance and repair work.
- Ferry reservations are recommended for those who wish to be over on the mainland for a specific time: e.g. Airline flights.
- The gravel road into Winter Harbour is an active logging road. The big off-road trucks have right-of-way, so drive with caution, and please remember that the speed limit is 50 km/hr or 30 mph.
- It is quite hard to get lost on the way to Winter Harbour from Port Hardy, just follow all posted signs and if in doubt, follow the Hydro lines.

Please forward all information to all the persons in your party
